OURS

PLAN BE  
LIVING

We make no compromises, maintaining high-quality during each stage of production and carefully bringing together strong and healthy products ideal for comfort. We use our knowledge in manufacturing durable and high-quality sofa styles to meticulously select the required materials.

The elegance in details is hidden in the quality of the raw materials used.

We provide the best ergonomics, comfort and durability through our expert craftsmanship. We guarantee the highest quality construction and processing standards for each and every product.

The most comfortable corner sets, sofas, armchairs are combined with fine craftsmanship, creativity and technology...

We specially manufacture our range to provide new opportunities for displaying unique styles in every environment and condition with an innovative perspective on life through our unique designs.

All thanks to the collaboration of passionate and experienced individuals each an expert in their own fields.

We present the best plan to reflect your style in your living space with our timeless style, quality raw materials and fabrics with meticulous thought given to each and every detail.

# PLAN BE

LIVING

## Plywood / E1 Certified:

The strongest and most durable plywood. Harmless to human health with E1 quality certification. We care about the sustainable environment in order to purify our living spaces from chemicals.

## Thermobond Fiber

Thermobond Fibers, which have a durable and very soft structure, maintain the temperature, prevent odor and moisture with their high air permeability.

## HR Foam

High flexibility, the best comfort. HR sponges give a comfortable feeling, and when you get up, their form quickly recovers.

## Natural Fiber Premium Quality Fabric

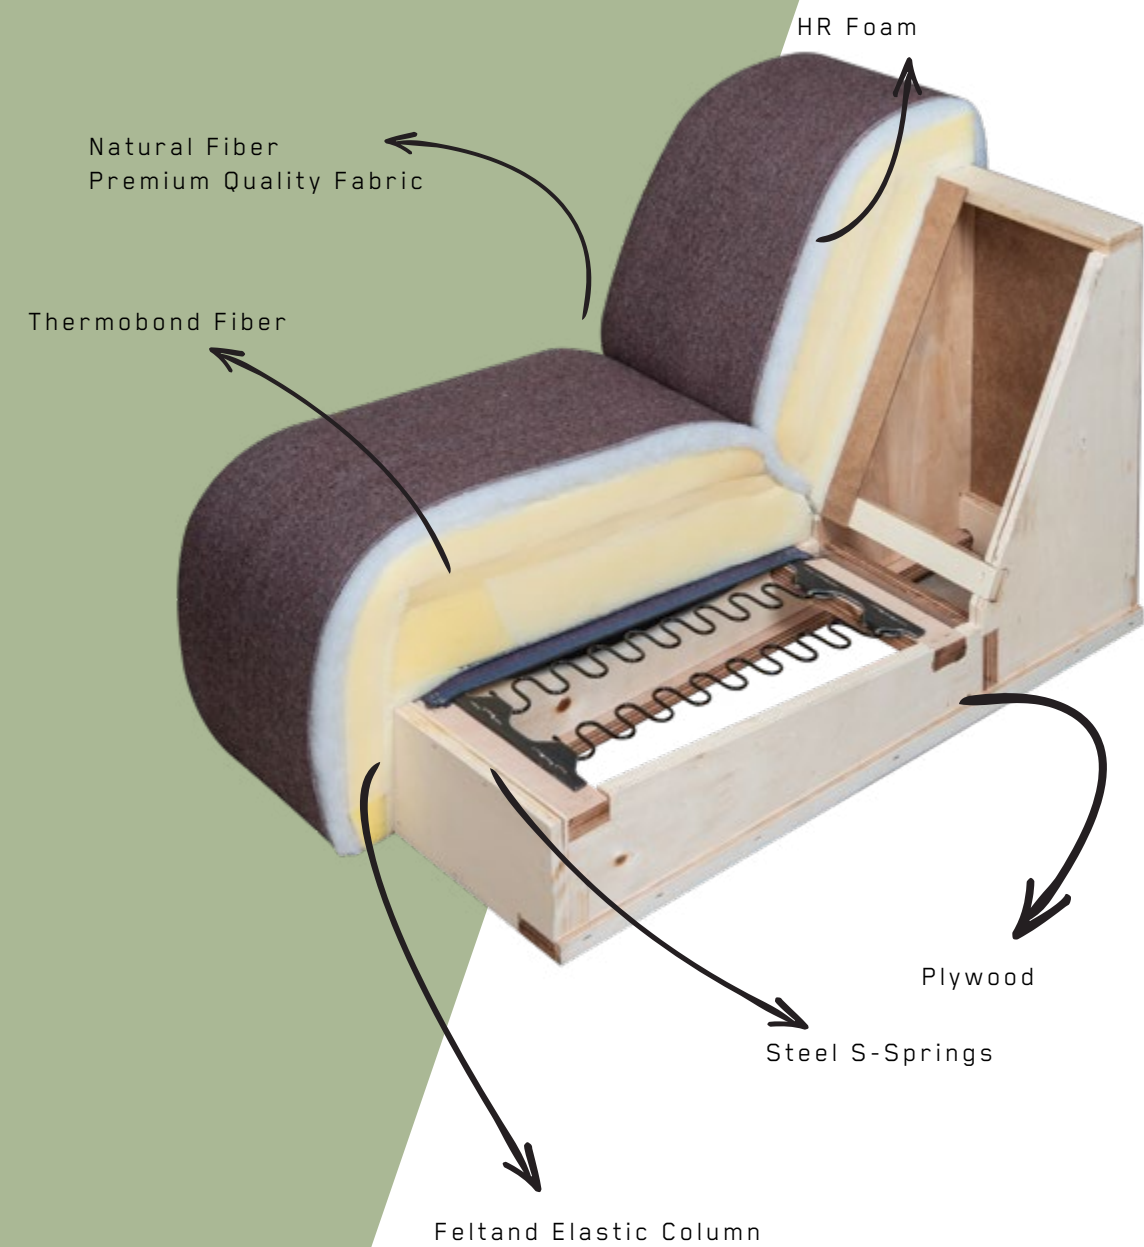

We also select our fabric collection carefully to complement the design of our living spaces. Durability of our fabric collection is measured via necessary testing.

## Steel S-Springs

The best ergonomics. S Spring Systems provide the desired stiffness and superior flexibility. The response to point contacts of the body is at the maximum level. It offers longer use.

## Felt and Elastic Column

Elevates the comfort and durability.
